## World Animal Day Celebrated in Slovakia as Well

rsi

Animals - even if they are not able to express their needs and feelings in words - have the right to be treated properly, the group Sloboda Zvierat (Animal Freedom) points out at the occasion on World Animal

Day celebrated on

Saturday. Since 1931, World Animal Day is celebrated on October 4, originally chosen because it is the feast day of Francis of Assisi, a nature lover and patron saint of animals and the environment. On Saturday, SZ also launched a Slovak version of the worldwide petition in order to urge the United Nations (UN) to adopt a Universal Declaration on Animal Welfare. The main goal of the petition is to recognise animals as sentient beings, capable of suffering and experiencing pain as well as to recognise that animal welfare is an issue of importance as a part of the social development of nations.
